Xposter™

Avant-garde Digital Poster Frame

**ULTRASLIM
& LIGHTWEIGHT**
INSTALLATION-FRIENDLY

TLT Xposter™ has been engineered with latest technologies to give it a smoother, slimmer profile. It's crafted in beautiful anodized lightweight yet durable aluminum, to make the entire poster frame weigh less than 35kg, making it more portable and easier to install.

**PLUG 'N' PLAY
MEDIA PLAYER**
ZERO CONFIGURATION

Enjoy the privilege of watching or screening your own video, audio or pictures playlists anytime, anywhere with Xposter™. Update your digital content in our powerful built-in media player via WiFi or USB. Easy-to-follow on-screen menu makes it absolutely simple to schedule your content and no complicated configuration is needed

**FRONT
SERVICEABILITY**
SNAPPY & EASY

You'll love to do servicing and panel replacements from the front just with a magnetic handle fast and conveniently.

**EASY
CONTROL**
SMOOTH OPERATION

High refresh rate (> 3000 Hertz) and 128 steps of gradation control No PC required, thus saves on cost, increases reliability and makes operations simpler. Content can be updated via network or via USB drive and the content will be stored automatically. Almost all video and image formats can be supported by 5GB built-in storage.

**INTELLIGENT
MANAGEMENT**
STAY IN CONTROL

Xposter™'s pre-integrated software enables you to connect to it with a PC or Android devices from a single location via RJ45, WiFi, 3G, USB and HDMI. That makes it extremely easy to identify your display and manage settings like brightness and contrast. Play content from device like laptop, tablet or smart phone. Perform centralized control and management via internet. You can efficiently send program remotely to worldwide screens without on-site control device or PC, administer and monitor it from your office.

Portable signage solutions that bring innovation and versatility to your business communications

Stand-Alone Mode

Update your digital content in our built-in media player via WiFi or USB. The built-in storage capacity of 5GB supports almost all video and image formats. There are also HDMI input and output that allow external computer synchronization using third-party media player software.

MT Mode

Connect **Xposter** to Android tablet or smart phone via Wifi. The customized APP can identify and manage basic settings of **Xposter** like "Adjust brightness, On/Off, Upload the play list, Change network setting".

Mirroring Mode

Show the contents of one **Xposter** on the screen of another **Xposter** simultaneously.

Extended Mode

Split and show the same video content on 2 or more **Xposters** simultaneously. Also known as cascade or split-screen mode.

Wireless Multi-screen Mode

Link maximum three **Xposters** together and stay connected via a router.

Manage and Control Your Network Remotely and Globally
Xposter makes centralized video control and management via internet delivery workflow a reality. Cast your video remotely without the need to have an on-site controlling device or PC. Increase your efficiency by administrating and monitoring your video from the comfort of your office or home.
